PRIVATE HOUSEHOLDS

PACKAGE PRICE LIST from Jan, 1st 2026

LUVYLab Oy Ab

Total price for the customer incl. discount
including analyses, statement costs and VAT 25,5 %

Utility analysis for dug well water

Below listed analyses reported with a statement of well water quality **269 €**

Coliform bacteria and *E.coli* (Colilert)
pH
Conductivity
Iron
Manganese
Total hardness
Fluoride
Chloride
Nitrite and nitrate
Ammonium nitrogen
Chemical oxygen consumption CODMn

Utility analysis for drilled well water

Below listed analyses reported with a statement of well water quality **318 €**

Coliform bacteria and *E.coli* (Colilert)
pH
Conductivity
Iron
Manganese
Total hardness
Fluoride
Chloride
Nitrite and nitrate
Ammonium nitrogen
Chemical oxygen consumption CODMn
Radon

Extended utility analysis for drilled well water

Below listed analyses reported with a statement of well water quality **368 €**

Coliform bacteria and *E.coli* (Colilert)
pH
Conductivity
Iron
Manganese
Total hardness
Fluoride
Chloride
Nitrite and nitrate
Ammonium nitrogen
Chemical oxygen consumption CODMn
Radon
Arsenic
Uranium

Compendious well water analysis

Below listed analyses reported with a statement of well water quality **206 €**

Coliform bacteria and *E.coli* (Colilert)
pH
Conductivity
Odour
Iron
Manganese
Nitrite and nitrate
Chemical oxygen consumption CODMn

Microbiological analysis

Below listed analyses reported with a statement of well water quality **112 €**

Coliform bacteria and *E.coli* (Colilert)
Faecal enterococci

Well water corrosiveness study

Below listed analyses reported with a statement of well water quality **102 €**

pH
Chloride
Sulphate
Alkalinity
Ca hardness

ATTENTION BUSINESS CUSTOMER!

We also offer the above and other analysis packages for small companies.
For the packages with contents and pricing, please visit us at our laboratory customer service or contact us by email or phone. In case you represent a bigger company and/or need to have your water analyzed multiple times per year, we suggest asking for an offer.

The prices of this list are about the same in euros for small companies, yet then the prices do not include VAT, and therefore, the discount is smaller than for private households. An exception is applied to companies that bring a sample of a private household's well water, which may be evaluated against the criteria set for such. In those cases, also the pricing of private households may be applied.

LUVYLab Oy Ab is a testing laboratory T147 accredited by the FINAS accreditation service, accreditation requirement SFS-EN ISO/IEC 17025: 2017. Activities included in the accredited area of competence can be seen on the website www.finas.fi.

If necessary, LUVYLab may forward the sample to a subcontracting laboratory of its choice, yet takes responsibility of the results.
